**Subject:** RE: Solyndra Analysis

As we are approaching the beginning of the approval process for Solyndra again, I wanted to highlight the questions below that remain outstanding. In order to move forward with the credit review of this project, I will need the responses to the questions below. Please let me know when the responses are ready. Delay in getting these responses will delay our ability to review the project and to meet the target deadline we have set.

As an additional note, I want to ensure that these concerns are addressed in the negotiations occurring Friday with Solyndra. As a practical matter, it would be awkward to finalize negotiations with the applicant and then to go back to them with additional requests for information. I want to ensure that the specific concerns Credit Policy and Credit Committee have indicated are reflected in the negotiated terms.

Please send your responses to the questions below at your earliest convenience.

Thanks.
